Accepting Invitaion

The screenshot shows the GitHub repository page for 'dev-sharif-hasan / BJIT-Force'. At the top, there's a navigation bar with links to Code, Issues, Pull requests, Actions, Projects, Wiki, Security, and Insights. Below this, a blue banner states: 'You now have push access to the dev-sharif-hasan/BJIT-Force repository.' The repository name 'BJIT-Force' is displayed with a 'Public' label. On the right, there are buttons for 'Watch' (1), 'Fork' (0), and 'Star' (0). The main content area shows the 'main' branch with 1 Branch and 0 Tags. A search bar 'Go to file' is present. Below this, a table lists the initial commit 'dev-sharif-hasan Initial commit' with a timestamp of '905a5d9 · 5 minutes ago' and '1 Commit'. The table lists files: '.gitignore' and 'README.md', both marked as 'Initial commit' and '5 minutes ago'. A 'README' section is visible, showing the title 'BJIT-Force' and the description 'Local Dining Guide project'. On the right sidebar, there's an 'About' section with links to 'Readme', 'Activity', '0 stars', '1 watching', '0 forks', and 'Report repository'. Below that is a 'Releases' section with the text 'No releases published'.

Invitation Accepted

This screenshot shows the same GitHub repository page as the previous one, but with the 'Code' dropdown menu open. The menu has two tabs: 'Local' and 'Codespaces'. Under the 'Local' tab, there's a 'Clone' button with a question mark icon. Below it, there are three options: 'HTTPS', 'SSH' (which is selected and underlined), and 'GitHub CLI'. The 'SSH' option shows the URL 'git@github.com:dev-sharif-hasan/BJIT-Force.git' with a copy icon. Below the URL, it says 'Use a password-protected SSH key.' There are also options to 'Open with GitHub Desktop' and 'Download ZIP'. The background of the page remains the same, showing the repository details and the README file.

Copying Repository

```
MINGW64/c/Users/BJIT/Desktop
BJIT@DESKTOP-3N9TI6I MINGW64 ~/Desktop
$ git clone git@github.com:dev-sharif-hasan/BJIT-Force.git
```

# Local Dining Guide
Web Based Dining Information Solution

Welcome to the Local Dining Guide project! This web-based software solution is designed to
provide users with comprehensive dining information, making it easy for them to explore
and discover local restaurants, cafes, and eateries. Whether you're a food enthusiast looking
for new culinary experiences or a traveller seeking the best dining spots in town, Local
Dining Guide has got you covered.
